President & CEO

June 27, 2022

Mr. Michael Lamprecht, Environmental Protection Specialist
Federal Aviation Administration
800 Independence Avenue SW
Washington, D.C. 20591

RE: Raleigh-Durham International Airport
Runway 5L/23R Replacement Project
Land Use Assurance

Dear Mr. Lamprecht:

The Raleigh-Durham Airport Authority provides this written documentation to affirm its assurance under 49 U.S.C. § 47107(a)(10) that appropriate action, including the adoption of zoning laws, has been or will be taken, to the extent reasonable, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including takeoff and landing of aircraft. This assurance applies to both existing and planned land uses.

This assurance also applies to all land use activities associated with the Proposed Runway 5L/23R Replacement Project, which is the subject of an Environmental Assessment. The Airport Authority will continue to work closely with other jurisdictions to promote adoption and enforcement of appropriate land use regulations related to airport land use compatibility.

Sincerely,

Michael J. Landguth, A.A.E.
President & CEO
