Sustainable Airport Master Plan (SAMP)  
Near-Term Projects environmental review  
October 9, 2018

### **POST SCOPING COMMENT PERIOD – UPDATE TO THE PUBLIC**

Thank you for participating in the Sustainable Airport Master Plan (SAMP) Near-Term Projects environment review public scoping process. We appreciate your participation in the public scoping meetings and your comments.

Over 300 people attended the public scoping meetings and we received over 750 comment submittals via email, regular mail, the Online Open House, and in person at the public scoping meetings.

The Port of Seattle (Port) and the Federal Aviation Administration (FAA) are reviewing all comment submittals to inform the SAMP Near-Term Projects environmental review process. In the next few months, the Port and the FAA will prepare responses to the comments received.

It is anticipated that we will brief the Port of Seattle Commission in early 2019 on the outcome of the scoping process and next steps. A scoping report will be made available following the 2019 briefing to Port of Seattle Commission and be available for review online at [www.SAMPNTPenvironmentalreview.org](http://www.SAMPNTPenvironmentalreview.org).

Following a detailed environmental analysis that will take most of 2019, in compliance with State Environmental Protection (SEPA) and the National Environmental Protection Act (NEPA), the draft environmental review of the SAMP Near-Term Projects is expected to be available for public review and comment in the Fall of 2019.

Stay tuned on the SAMP Near-Term Projects environmental review by visiting [www.SAMPNTPenvironmentalreview.org](http://www.SAMPNTPenvironmentalreview.org), or subscribe to our e-newsletter via [www.portofseattle.org](http://www.portofseattle.org), and check the “Sustainable Airport Master Plan” list.

## **Sustainable Airport Master Plan Environmental Review Scoping Begins July 30**

The Sustainable Airport Master Plan (SAMP) is the blueprint for changes at Seattle-Tacoma International Airport to meet future forecasted demand. SAMP identifies over 30 Near-Term Projects that are needed to serve the expected growth in passengers, flights and cargo activity through 2027.

Today marks the launch of the 60-day environmental review scoping period for the SAMP Near-Term Projects. During this time, agency stakeholders and the public have the opportunity to provide input about the range of environmental categories to be studied in this environmental review process. All comments must be submitted or postmarked by September 28.

Visit the SAMP online open house ([www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org)) to provide public comment and learn more about the SAMP environmental review process. The environmental categories and the SAMP Scoping Information Packet are available on the online open house.

Comments can be submitted through the online open house, by email, by USPS mail, and in person at any of the four public open houses:

- September 10 – Highline College Student Union/Building 8 (City of Des Moines)
- September 12 – New Holly Gathering Hall (City of Seattle – Beacon Hill neighborhood)
- September 17 – Federal Way Community Center (City of Federal Way)
- September 19 – SeaTac Community Center (City of SeaTac)

All public open houses will occur from 5:30 PM to 8:30 PM, will be widely advertised, will cover identical content, and will include subject matter experts on hand to answer questions. A stenographer will record verbal comments at each public open house. A scoping meeting for public agencies will be held on September 6 at Sea-Tac Airport. For more information on the public open houses and the various ways to provide comments, visit the [SAMP Environmental Review](http://www.SAMPenvironmentalreview.org) website.

If you need the assistance of an interpreter, please call the Port's language help line at (206) 787-3797. If other accommodations are needed for any of the public meetings, please call (206) 787-5525.

**Subject:** SAMP Near-Term Projects environmental review post-scoping comment period update

Thank you for participating in the Sustainable Airport Master Plan (SAMP) Near-Term Projects environment review public scoping process. We appreciate your participation in the public scoping meetings and your comments.

## **Sustainable Airport Master Plan Near-Term Projects Environmental Review Scoping Concludes Friday, September 28, 2018**

The Sustainable Airport Master Plan (SAMP) identifies Near-Term Projects (NTP) that are needed to serve the expected growth in passengers, flights and cargo activity through 2027.

Friday, September 28 marks the conclusion of the 60-day environmental review scoping comment period for the SAMP Near-Term Projects. During this time, which included four public open houses, agency stakeholders and members of the public have had the opportunity to comment on the evaluation of the potential impacts in the environmental resource categories and elements of the environment required under NEPA and SEPA, as well as the reasonable range of alternatives.

If you wish to provide comments by the deadline, please visit the SAMP online open house ([www.SAMPNTPenvironmentalreview.org](http://www.SAMPNTPenvironmentalreview.org)) to learn more about the SAMP NTP environmental review process and to provide comment. Additional information, including the SAMP NTP environmental review Scoping Information Packet, is available on the online open house.

Comments also can be submitted by email, [SAMP@portseattle.org](mailto:SAMP@portseattle.org), and by USPS mail at the address below. All comments must be submitted or postmarked before midnight Friday, September 28.

## **Sustainable Airport Master Plan Near-Term Projects Environmental Review: September Public Scoping Meetings**

SAMP identifies Near-Term Projects that are needed to serve the expected growth in passengers, flights and cargo activity through 2027.

The 60-day environmental review scoping period for the SAMP Near-Term Projects began on **July 30** and concludes on **September 28**. During this time, agency stakeholders and members of the public are invited to comment on the evaluation of the potential impacts in the environmental resource categories and elements of the environment required under NEPA and SEPA as well as the reasonable range of alternatives. Four public scoping meetings have been scheduled in September to allow members of the public to interact with subject matter experts. At the public scoping meetings, attendees can also either formally submit their comments in writing or have their verbal comments captured by a stenographer.

Public scoping meetings:

- **September 10** – Highline College Student Union/Building 8 (**2400 S. 240th Street - Des Moines**)
- **September 12** – New Holly Gathering Hall (**7054 32nd Avenue S. - Seattle - Beacon Hill neighborhood**)
- **September 17** – Federal Way Community Center (**876 S. 333rd Street - Federal Way**)
- **September 19** – SeaTac Community Center (**13735 24th Avenue S. - SeaTac**)

For the **September 10** meeting: Attendees can park at Highline College's East, North or South Parking Lot. Port staff will be positioned at each lot's parking pay station to distribute free visitor parking passes to attendees.

All meetings will occur from **5:30 PM to 8:30 PM**, are being widely advertised, will cover identical content and will offer translated materials, child care and food and beverages.

Visit the SAMP online open house (<https://sampntpenvironmentalreview.org/>) to learn more about the public scoping meetings and environmental review process. Formal comments can also be submitted through the online open house, by email and by USPS mail.

If you need the assistance of an interpreter, please call the Port's language help line at (206) 787-3797. If other accommodations are needed for any of the meetings, please call (206) 787-5525.

## NEWS RELEASE

For Immediate Release

September 5, 2018

Contact: Perry Cooper/Sea-Tac Airport  
206-787-4923

[cooper.p@portseattle.org](mailto:cooper.p@portseattle.org)

### **Beginning September 10: Attend Public Meetings on Seattle-Tacoma International Airport's Sustainable Airport Master Plan Near-Term Projects Environmental Review**

*Port inviting public comments in person at meetings, via mail, email, or through an online open house in English, [العربية](#), [Somali](#), [Español](#), and [Tiếng Việt](#)*

(Seattle) -- The Port of Seattle will host four public meetings this month as part of the environmental review "scoping" process of the Sustainable Airport Master Plan (SAMP) Near-Term Projects for Seattle-Tacoma International Airport. During scoping, the public is invited to comment on the evaluation of the potential impacts in the environmental resources categories and elements of the environment required under NEPA and SEPA as well as the reasonable range of alternatives.

The public may provide comments through September 28, the end of an official 60-day public comment period.

The Port invites comments by email, regular mail, through an [online open house](#), and during four public meetings scheduled during September. The online open house material is available in [English](#), [العربية](#), [Somali](#), [Español](#), and [Tiếng Việt](#).

- **September 10** – Highline College Student Union Building 8, 2400 S 240th St, Des Moines, WA 98198 (City of Des Moines)
  - *Attendees can park at Highline College's East, North or South Parking Lot. Port staff will be at each lot's parking pay station to distribute free parking passes to attendees.*
- **September 12** – New Holly Gathering Hall, 7054 32nd Ave S, Seattle, WA 98118 (City of Seattle – Beacon Hill neighborhood)
- **September 17** – Federal Way Community Center, 876 S 333rd St, Federal Way, WA 98003 (City of Federal Way)
- **September 19** – SeaTac Community Center, 13735 24th Ave S, SeaTac, WA 98168 (City of SeaTac)

All public meetings will occur from 5:30 p.m. to 8:30 p.m. and all meetings have identical content.

SAMP Near-Term Projects planning identified projects to improve efficiency, safety, access to the airport, and support facilities for airlines and the airport to accommodate forecasted demand of 56 million passengers by 2027.

These Near-Term Projects will be studied in this environmental review process. The proposed SAMP Near-Term Projects purpose is to meet forecasted passenger and cargo demand, comply with FAA airfield standards/guidance, improve airfield operational efficiency, provide additional fuel capacity and meet the Port's sustainable aviation fuel initiative.

The SAMP includes a Long-Term Vision for Sea-Tac, which includes projects that are not ripe for environmental review at this time, as they require further study and are not reasonably foreseeable. Before any of the Long-Term Vision projects are implemented, the appropriate planning and environmental review process will be conducted.

**About Seattle-Tacoma International Airport**

*Operated by the Port of Seattle, Seattle-Tacoma International Airport (SEA, KSEA) is ranked as the 9th busiest U.S. airport, serving 46.9 million passengers and more than 425,800 metric tons of air cargo in 2017. With a regional economic impact of more than \$22.5 billion in business revenue, Sea-Tac generates more than 151,400 jobs (87,300 direct jobs), representing over \$3.6 billion in direct earnings and more than \$442 million in state and local taxes. Twenty-eight airlines serve 87 non-stop domestic and 23 international destinations.*

206-787-4923

[cooper.p@portseattle.org](mailto:cooper.p@portseattle.org)

### **Sustainable Airport Master Plan Environmental Review Scoping Begins July 30<sup>th</sup> for Sea-Tac Airport**

*Port of Seattle asking for public input online and through meetings in September*

(Seattle) -- The Port of Seattle is asking for public input beginning July 30<sup>th</sup> for the first phase of environmental review of the Sustainable Airport Master Plan (SAMP) for Seattle-Tacoma International Airport. The public is invited to comment for the next 60 days through an online open house and during four public meetings scheduled during the month of September.

This first phase of extensive studies about potential environmental impacts of SAMP is called 'scoping' which invites public input on what topics should be studied in the Environmental Review. In compliance with the State Environmental Protection Act (SEPA) and the National Environmental Protection Act (NEPA), scoping provides the earliest possible opportunity for public and agency stakeholders to provide input about the range of environmental issues to be studied during the environmental review.

Information on the SAMP environmental review, the scoping process and the opportunity to comment can be found at an online open house [link <http://www.sampenvironmentalreview.org/>]. Comments can also be submitted by email, regular mail, and in person at the four public open houses occurring this September:

- September 10 – Highline College Student Union (City of Des Moines)
- September 12 – New Holly Gathering Hall (City of Seattle – Beacon Hill neighborhood)
- September 17 – Federal Way Community Center (City of Federal Way)
- September 19 – SeaTac Community Center (City of SeaTac)
  - *All open houses will occur from 5:30 p.m. to 8:30 p.m.*

#### **What is SAMP?**

The Central Puget Sound region is expected to grow by another one million people by 2035. The Sustainable Airport Master Plan (SAMP) is the blueprint for changes at Sea-Tac Airport to meet future forecasted regional demand. The first phase of SAMP recommends more than 30 projects that will improve efficiency, safety, access to the airport, and support facilities for airlines and the airport to accommodate a forecasted demand of 56 million passengers by 2027. Sea-Tac Airport served 46.9 million passengers in 2017, the seventh straight record year of passenger growth.

The first phase of projects includes a new north terminal with 19 gates and an automated people mover with three stations to connect the Rental Car Facility, a new terminal, and the main terminal.

### **Scoping Topics**

To date the airport has identified 28 environmental categories such as environmental justice and children's environmental health, climate and greenhouse gases, light emissions, visual impacts and noise to study during the environmental review. The public and stakeholders are invited to add comments and ideas to the scoping categories.

### **About Seattle-Tacoma International Airport**

*Operated by the Port of Seattle, Seattle-Tacoma International Airport (SEA, KSEA) is ranked as the 9th busiest U.S. airport, serving 46.9 million passengers and more than 425,800 metric tons of air cargo in 2017. With a regional economic impact of more than \$22.5 billion in business revenue, Sea-Tac generates more than 151,400 jobs (87,300 direct jobs), representing over \$3.6 billion in direct earnings and more than \$442 million in state and local taxes. Twenty-eight airlines serve 87 non-stop domestic and 23 international destinations.*

**PUBLIC NOTICE  
LEGAL NOTICE –  
JULY 30, 2018  
SUSTAINABLE AIRPORT  
MASTER PLAN  
ENVIRONMENTAL REVIEW**

SEPA DETERMINATION OF SIGNIFICANCE (DS) AND REQUEST FOR COMMENTS ON SCOPE OF SEPA ENVIRONMENTAL IMPACT STATEMENT (SEPA EIS) AND NATIONAL ENVIRONMENTAL POLICY ACT ENVIRONMENTAL ASSESSMENT (NEPA EA). SEATTLE-TACOMA INTERNATIONAL AIRPORT (SEA-TAC AIRPORT) SUSTAINABLE AIRPORT MASTER PLAN (SAMP)

The Port of Seattle is initiating an environmental review process for the Near-Term Project improvements proposed as part of the Sustainable Airport Master Plan (SAMP). The SAMP includes Near-Term Projects for Seattle-Tacoma International Airport (Sea-Tac) that are planned for construction by 2027 that are the focus of this environmental review, which is being conducted to comply with the State Environmental Policy Act (SEPA) and National Environmental Policy Act (NEPA). The SAMP also includes a Long-Term Vision for Sea-Tac which includes projects that are not ripe for environmental review at this time, as they require further study and are not reasonably foreseeable. Before any of the

Long-Term Vision projects are implemented, the appropriate environmental review process will be conducted. The Near-Term Projects (the Proposed Action) are the subject of a phased environmental review process to comply with SEPA. The Port and Federal Aviation Administration (FAA) anticipate conducting additional environmental review in the future regarding the Long-Term Vision projects identified in the SAMP. The SAMP identifies facilities and roadway improvements that are needed to serve expected growth in passengers, aircraft operations and cargo activity through 2027. Approximately 30 projects at the Airport are needed to enhance efficiency, accommodate projected growth in activity, and alleviate congestion on the airfield, in the terminal, and on the roadway system. Key elements of the Proposed Action include con-

struction of a second terminal, a centralized maintenance campus, off-airport cargo handling facilities, realignment of airport roadways, and expansion of the fueling facilities. The Proposed Action would accommodate up to approximately 477,000 annual aircraft operations and 56 million annual passengers. *SEPA EIS Required.* The Port of Seattle, as lead agency, acknowledges that there is public interest and concern about the potential environmental impacts

of implementing the Proposed Action. Based on that level of concern and the potential for impacts that may occur with the implementation of the Proposed Action, the Port of Seattle has determined that a SEPA EIS will be prepared. *NEPA EA*. The FAA will serve as the lead federal agency for the preparation of an Environmental Assessment to comply with NEPA. The NEPA regulations adopted by the Council for Environmental Quality (CEQ), 40 CFR § 1500 et seq., together with FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*, and FAA Order 5050.4B, *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Actions*, will guide the preparation of the NEPA Environmental Assessment (NEPA EA). The lead agencies (FAA for NEPA and Port of Seattle for SEPA) have identified the following areas for discussion in the NEPA EA/SEPA EIS. In accordance with NEPA and SEPA, the environmental review will consider the potential effects of the Proposed Action and a range of alternatives on each of the environmental factors below. SEPA Elements of the Environment. Earth, Geology, Soils, Topography Unique physical features, Erosion/enlargement of land area; Air, Air quality, Odor, Climate; Water, Surface water movement/quantity/quality, Runoff/absorption, Floods, Groundwater movement/quantity/quality, Public water supplies; Plants and animals, Habitat for

and numbers or diversity of species of plants, fish, or other wildlife, Unique species, Fish or wildlife migration routes; Energy and natural resources, Amount required/rate of use/efficiency, Source/availability, Nonrenewable resources, Conservation and renewable resources, Scenic resources; Environmental health, Noise, Risk of explosion, Releases or potential releases to the environment affecting public health, such as toxic or hazardous materials; Land and shoreline use, Relationship to existing land use plans and to estimated population, Housing, Light and glare, Aesthetics, Recreation, Historic and cultural preservation, Agricultural crops; Transportation, Transportation systems, Vehicular traffic, Waterborne, rail, and air traffic, Parking, Movement/circulation of people or goods, Traffic hazards; Public services and utilities, Fire, Police, Schools, Parks or other recreational facilities, Maintenance, Communications, Water/stormwater, Sewer/solid waste. *NEPA Resource Categories*. Air Quality, Biological Resources, Climate, Coastal Resources, Department of Transportation (DOT) Section 4 (f), Farmlands, Hazardous Materials, Solid Waste, and Pollution Prevention, Historical, Architectural, Archeological, and Cultural Resources, Land Use, Natural Resources and Energy Supply, Noise and Noise-Compatible Land Use, Socioeconom-

ics, Environmental Justice, and Children's Environmental Health and Safety Risks, Visual Effects, Water Resources; Wetlands, Floodplains, Surface Waters, Groundwater, Wild and Scenic Rivers. *Scoping*. Scoping is an early and open process for determining the scope of issues that will be addressed in the environmental review document, soliciting input regarding the Proposed Action and reasonable alternatives, and for identifying concerns regarding the potential environmental effects of the Proposed Action. Comments received during Scoping will be reviewed and taken into consideration during the preparation of the NEPA and SEPA analyses. Agencies, potentially affected tribes, and members of the public are invited to comment on the scope of the SEPA EIS/NEPA EA. A Scoping Information Packet has been prepared and is available at the website listed below. You may comment on the resource categories/elements of the environment that will be evaluated, alternatives to the proposed action, and licenses, permits, or other approvals that may be required. It

is requested that all comments include your name and address. Before including your name, address, telephone number, email or other personal identifying information in your comment, be advised that your entire comment – including your personal

identifying information – may be made publicly available at any time. Comments may be submitted via: SAMP Environmental Review website (Click "Participate"): [www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org). Email: [SAMP@portseattle.org](mailto:SAMP@portseattle.org). Regular mail to: Mr. Steve Rybolt, Port of Seattle, Aviation Environment and Sustainability, P.O. Box 68727, Seattle, WA 98168. All comments must be submitted or postmarked by September 28, 2018. In addition to submitting comments on the website, or via email or regular mail, you may also submit comments in person at one of the scoping meetings listed below. Scoping meetings for the public will be held: September 10, 2018  
City of Des Moines, 5:30 PM – 8:30 PM, Highline College Student Union. September 12, 2018, City of Seattle (Beacon Hill), 5:30 PM – 8:30 PM, New Holly Gathering Hall. September 17, 2018, City of Federal Way, 5:30 PM – 8:30 PM, Federal Way Community Center. September 19, 2018, City of SeaTac 5:30 PM – 8:30 PM, SeaTac Community Center. A scoping meeting for government agencies will be held: September 6, 2018, Sea-Tac Airport, 1:00 PM – 4:00 PM, Central Auditorium. Tribes. FAA will conduct Government to Government Consultation with the potentially affected Tribes as part of this environmental

review process. At the scoping meetings information regarding the Proposed Action and the environmental review process will be available. For more information or for those unable to attend a Public Scoping Meeting, the same information will be available on the Port of Seattle's website: [www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org). Responsible Official: Ms. Arlyn Purcell, Port of Seattle, Director, Aviation Environment and Sustainability, (206) 787-6527, P.O. Box 68727, Seattle, WA 98168

---

**SEPA DETERMINATION OF SIGNIFICANCE (DS) AND REQUEST FOR COMMENTS ON SCOPE OF SEPA ENVIRONMENTAL IMPACT STATEMENT (SEPA EIS) AND NATIONAL ENVIRONMENTAL POLICY ACT ENVIRONMENTAL ASSESSMENT (NEPA EA). Seattle-Tacoma International Airport (Sea-Tac Airport) Sustainable Airport Master Plan (SAMP)**

The Port of Seattle is initiating an environmental review process for the Near-Term Project improvements proposed as part of the Sustainable Airport Master Plan (SAMP). The SAMP includes Near-Term Projects for Seattle-Tacoma International Airport (Sea-Tac) that are planned for construction by 2027 that are the focus of this environmental review, which is being conducted to comply with the State Environmental Policy Act (SEPA) and National Environmental Policy Act (NEPA). The SAMP also includes a Long-Term Vision for Sea-Tac which includes projects that are not ripe for environmental review at this time, as they require further study and are not reasonably foreseeable. Before any of the Long-Term Vision projects are implemented, the appropriate environmental review process will be conducted. The Near-Term Projects (the Proposed Action) are the subject of a phased environmental review process to comply with SEPA. The Port and Federal Aviation Administration (FAA) anticipate conducting additional environmental review in the future regarding the Long-Term Vision projects identified in the SAMP. The SAMP identifies facilities and roadway improvements that are needed to serve expected growth in passengers, aircraft operations and cargo activity through 2027.

Approximately 30 projects at the Airport are needed to enhance efficiency, accommodate projected growth in activity, and alleviate congestion on the airfield, in the terminal, and on the roadway system. Key elements of the Proposed Action include construction of a second terminal, a centralized maintenance campus, off-airport cargo handling facilities, realignment of airport roadways, and expansion of the fueling facilities. The Proposed Action would accommodate up to approximately 477,000 annual aircraft operations and 56 million annual passengers. *SEPA EIS Required.* The Port of Seattle, as lead agency, acknowledges that there is public interest and concern about the potential environmental impacts of implementing the Proposed Action. Based on that level of concern and the potential for impacts that may occur with the implementation of the Proposed Action, the Port of Seattle has determined that a SEPA EIS will be prepared. *NEPA EA.* The FAA will serve as the lead federal agency for the preparation of an Environmental Assessment to comply with NEPA. The NEPA regulations adopted by the Council for Environmental Quality (CEQ), 40 CFR § 1500 et seq., together with FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*, and FAA Order 5050.4B, *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Actions*, will guide the preparation of the NEPA Environmental Assessment (NEPA EA). The lead agencies (FAA for NEPA and Port of Seattle for SEPA) have identified the following areas for discussion in the NEPA EA/SEPA EIS. In accordance with NEPA and SEPA, the environmental review will consider the potential effects of the Proposed Action and a range of alternatives on each of the environmental factors below. SEPA Elements of the Environment. Earth, Geology, Soils, Topography Unique physical features, Erosion/enlargement of land area; Air, Air quality, Odor, Climate; Water, Surface water movement/quantity/quality, Runoff/absorption, Floods, Groundwater movement/quantity/quality, Public water supplies; Plants and animals, Habitat for and numbers or diversity of species of plants, fish, or other wildlife, Unique species, Fish or wildlife migration routes; Energy and natural resources, Amount required/rate of use/efficiency,

Source/availability, Nonrenewable resources, Conservation and renewable resources, Scenic resources; Environmental health, Noise, Risk of explosion, Releases or potential releases to the environment affecting public health, such as toxic or hazardous materials; Land and shoreline use, Relationship to existing land use plans and to estimated population, Housing, Light and glare, Aesthetics, Recreation, Historic and cultural preservation, Agricultural crops; Transportation, Transportation systems, Vehicular traffic, Waterborne, rail, and air traffic, Parking, Movement/circulation of people or goods, Traffic hazards; Public services and utilities, Fire, Police, Schools, Parks or other recreational facilities, Maintenance, Communications, Water/stormwater, Sewer/solid waste. *NEPA Resource Categories.* Air Quality, Biological Resources, Climate, Coastal Resources, Department of Transportation (DOT) Section 4 (f), Farmlands, Hazardous Materials, Solid Waste, and Pollution Prevention, Historical, Architectural, Archeological, and Cultural Resources, Land Use, Natural Resources and Energy Supply, Noise and Noise-Compatible Land Use, Socioeconomics, Environmental Justice, and Children's Environmental Health and Safety Risks, Visual Effects, Water Resources; Wetlands, Floodplains, Surface Waters, Groundwater, Wild and Scenic Rivers. *Scoping.* Scoping is an early and open process for determining the scope of issues that will be addressed in the environmental review document, soliciting input regarding the Proposed Action and reasonable alternatives, and for identifying concerns regarding the potential environmental effects of the Proposed Action. Comments received during Scoping will be reviewed and taken into consideration during the preparation of the NEPA and SEPA analyses. Agencies, potentially affected tribes, and members of the public are invited to comment on the scope of the SEPA EIS/NEPA EA. A Scoping Information Packet has been prepared and is available at the website listed below. You may comment on the resource categories/elements of the environment that will be evaluated, alternatives to the proposed action, and licenses, permits, or other approvals that may be required. It is requested that all comments include your name and address. Donovan Brothers, Dave Kessler, 1801 W Valley Hwy N Ste 101 Auburn, WA 98001, is seeking coverage under the Washington State Department of Ecology's Construction Stormwater NPDES and State Waste Discharge General Permit. The proposed project, Northshore Heated Storage, is located at 2010 SW 356th St in Federal Way in King county. This project involves 2.21 acres of soil disturbance for Commercial construction activities. The receiving waterbody is City of Federal Way Stormwater System. Any persons desiring to present their views to the Washington State Department of Ecology regarding this Application, or interested in Ecology's action on this Application, may notify Ecology in writing no later than 30 days of the last date of publication of this notice. Ecology reviews public comments and considers whether discharges from this project would cause a measurable change in receiving water quality, and, if so, whether the project is necessary and in the overriding public interest according to Tier II antidegradation requirements under WAC 173-201A-320. Comments can be submitted to: Department of Ecology Attn: Water Quality Program, Construction Stormwater P.O. Box 47896, Olympia, WA 98504-7896 # 818107 7/27/18, 8/3/18

 This is to notify patrons of the Federal Way Public Schools that the Board of Directors will meet on Tuesday, August 14, 2018 at 6:00 p.m. for the purpose of finalizing and adopting the 2018-19 budget. The location for this meeting will be at the FWPS Education Service Center, 33330 8th Avenue S., Federal Way, WA 98003. Interested citizens may appear at the hearing and speak for or against any part of the budget, which includes the General Fund; the Transportation Vehicle Fund; the Capital Projects Fund; the Debt Service Fund; and the Associated Student Body Fund. Information is available at the Educational Service Center. Dr. Tammy Campbell, Superintendent Published in Federal Way Mirror On August 3 and August 10. # 819674

**Updated Notice of Funds Available (NOFA)**  
**2019 Community Development Block Grant (CDBG)**

**Community Economic Revitalization Funding**  
 The City of Federal Way will be seeking applications from non-profit and public agencies for projects that benefit Federal Way low- and moderate-income residents. The focus of this funding is job creation, economic development, and community revitalization in the approved, designated Neighborhood Revitalization Strategy Area (NRSA). The designated NRSA in Federal Way is bordered by Interstate 5 on the east, Pacific Highway South on the west, South 288th Street on the north, and primarily South 296th, South 298th, and Military Road S on the south. The approved NRSA Plan should be consulted for the exact area; it includes all bordering streets and a map of the area. The approved NRSA plan is available at <http://www.cityoffederalway.com/node/1674>. Proposed projects must be eligible for Community Development Block Grant (CDBG) funds appropriated to Federal Way under the Housing and Community Development Act of 1974, as amended. Projects must serve Federal Way residents that qualify as presumed benefit or qualify as low- and moderate-income and reside within the catchment area of the NRSA. Proposed projects must be in alignment with the approved

NRSA Plan, available at <http://www.cityoffederalway.com/node/1674> and address one or more of the goals and strategies outlined in the plan.

What types of projects are eligible for CDBG funds? Any CDBG project must meet one of the three national objectives:

- National Objective #1: Activities Benefiting Low- and Moderate-Income Persons
- National Objective #2: Activities Which Aid in the Prevention or Elimination of Slums or Blight
- National Objective #3: Activities Designed to Meet Community Development Needs Having a Particular Urgency

For more information on eligible activities, please visit the following website and review 24 CFR 570.200-207: <http://www.ecfr.gov/cgi-bin/text-idx?SID=b3ffbd85913afcf0f1503b1f0f97185&mc=&trn=&node=sp24.3.570.c&rgn=div6>

CDBG funds may be used to provide assistance to carry out revitalization activities, including job creation and community revitalization. Examples of eligible projects include, but are not limited to:

- Business attraction and retention
- Education, training, and technical assistance programs that create new jobs that increase living wages
- Programs that support job growth for low- or moderate- low income individuals
- Community revitalization
- Building construction or acquisition and redevelopment
- Community or neighborhood facilities
- Street improvements such as sidewalks, lighting in low- to moderate- low neighborhoods

**Who can apply?** Qualifying nonprofit organizations and public agencies serving Federal Way residents who are presumed benefit or qualify as low- and moderate-income. If applying to provide public services, the organization must be a Community Based Development Organization (24 CFR 570.204(c)(1)). All applicants must be eligible to receive federal funding and must be registered in the System for Award Management at <https://sam.gov>.

**Required Project Eligibility Review?** All potential applicants are required to have a conversation with staff prior to submitting. The meeting and/or conversation must take place no later than August 31, 2018. Staff will work with applicants to determine eligibility and provide technical assistance.

**When and where will applications be available?** Applications will be available beginning Friday, August 3, 2018, at City Hall and on the City website <http://www.cityoffederalway.com/node/1674>.

**When and where will the NOFA guidelines be available?** The NOFA guidelines will be available beginning Friday, August 3, 2018, at City Hall and on the City website at <http://www.cityoffederalway.com/node/1674>.

**Technical workshop?** A technical assistance workshop will be held on Wednesday, August 15, 2018 from 10:00 a.m. - 12:00 p.m. at Federal Way City Hall, City Council Chambers (second floor). Technical assistance includes answering questions about CDBG regulations; application requirements; discussing the proposed project's compliance with program regulations; and eligibility for funding. We have reserved time at the end of the workshop for individual conferences with prospective applicants, if needed. Attendance at the workshop is recommended, but not mandatory for submitting an application. You do not need to RSVP to attend the workshop.

**Deadline to Apply?** No later than 4:00 pm on Friday, September 7, 2018.

**Contact:** Jeff Watson at (253) 835-2650 or [jeff.watson@cityoffederalway.com](mailto:jeff.watson@cityoffederalway.com) for more information.

For TDD relay service, call 1-800-833-6388/TDD or 1-800-833-6384/voice. This notice is available in alternate formats for individuals with disabilities and will be translated upon request. Published in the Federal Way Mirror on August 3, 2018. #2182726.

**LEGAL NOTICE - July 30, 2018 - Sustainable Airport Master Plan Environmental Review SEPA DETERMINATION OF SIGNIFICANCE (DS) AND REQUEST FOR COMMENTS ON SCOPE OF SEPA ENVIRONMENTAL IMPACT STATEMENT (SEPA EIS) AND NATIONAL ENVIRONMENTAL POLICY ACT ENVIRONMENTAL ASSESSMENT (NEPA EA). Seattle-Tacoma International Airport (Sea-Tac Airport) Sustainable Airport Master Plan (SAMP)**

The Port of Seattle is initiating an environmental review process for the Near-Term Project Improvements proposed as part of the Sustainable Airport Master Plan (SAMP). The SAMP includes Near-Term Projects for Seattle-Tacoma International Airport (Sea-Tac) that are planned for construction by 2027 that are the focus of this environmental review, which is being conducted to comply with the State Environmental Policy Act (SEPA) and National Environmental Policy Act (NEPA). The SAMP also includes a Long-Term Vision for Sea-Tac which includes projects that are not ripe for environmental review at this time, as they require further study and are not reasonably foreseeable. Before any of the Long-Term Vision projects are implemented, the appropriate environmental review process will be conducted. The Near-Term Projects (the Proposed Action) are the subject of a phased environmental review process to comply with SEPA. The Port and Federal Aviation Administration (FAA) anticipate conducting additional environmental review in the future regarding the Long-Term Vision projects identified in the SAMP. The SAMP identifies facilities and roadway improvements that are needed to serve expected growth in passengers, aircraft operations and cargo activity through 2027. Approximately 30 projects at the Airport are needed to enhance efficiency, accommodate projected growth in activity, and alleviate congestion on the airfield, in the terminal, and on the roadway system. Key elements of the Proposed Action include construction of a second terminal, a centralized maintenance campus, off-airport cargo handling facilities, realignment of airport roadways, and expansion of the fueling facilities. The Proposed Action would accommodate up to approximately 477,000 annual aircraft operations and 56 million annual passengers. SEPA EIS Required. The Port of Seattle, as lead agency, acknowledges that there is public interest and concern about the potential environmental impacts of implementing the Proposed Action. Based on that level of concern and the potential for impacts that may occur with the implementation of the Proposed Action, the Port of Seattle has determined that a SEPA EIS will be prepared. NEPA EA. The FAA will serve as the lead federal agency for the preparation of an Environmental Assessment to comply with NEPA. The NEPA regulations adopted by the Council for Environmental Quality (CEQ), 40 CFR § 1500 et seq., together with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, and FAA Order 5050.4B, National Environmental Policy Act (NEPA) Implementing Instructions for Airport Actions, will guide the preparation of the NEPA Environmental Assessment (NEPA EA). The lead agencies (FAA for NEPA and Port of Seattle for SEPA) have identified the following areas for discussion in the NEPA EA/SEPA EIS. In accordance with NEPA and SEPA, the environmental review will consider the potential effects of the Proposed Action and a range of alternatives on each of the environmental factors below. SEPA Elements of the Environment. Earth, Geology, Soils, Topography Unique physical features, Erosion/enlargement of land area; Air, Air quality, Odor, Climate; Water, Surface water movement/quantity/quality, Run-off/absorption, Floods, Groundwater movement/quantity/quality, Public water supplies; Plants and animals, Habitat for and numbers or diversity of species of plants, fish, or other wildlife, Unique species, Fish or wildlife migration routes; Energy and natural resources, Amount required/rate of use/efficiency, Source/availability, Nonrenewable resources, Conservation and renewable resources, Scenic resources; Environmental health, Noise, Risk of explosion, Releases or potential releases to the environment affecting public health, such as toxic or hazardous materials; Land and shoreline use, Relationship to existing land use plans and to

estimated population, Housing, Light and glare, Aesthetics, Recreation, Historic and cultural preservation, Agricultural crops; Transportation, Transportation systems, Vehicular traffic, Waterborne, rail, and air traffic, Parking, Movement/circulation of people or goods, Traffic hazards; Public services and utilities, Fire, Police, Schools, Parks or other recreational facilities, Maintenance, Communications, Water/stormwater, Sewer/solid waste. NEPA Resource Categories. Air Quality, Biological Resources, Climate, Coastal Resources, Department of Transportation (DOT) Section 4 (f), Farmlands, Hazardous Materials, Solid Waste, and Pollution Prevention, Historical, Architectural, Archeological, and Cultural Resources, Land Use, Natural Resources and Energy Supply, Noise and Noise-Compatible Land Use, Socioeconomics, Environmental Justice, and Children's Environmental Health and Safety Risks, Visual Effects, Water Resources; Wetlands, Floodplains, Surface Waters, Groundwater, Wild and Scenic Rivers. Scoping. Scoping is an early and open process for determining the scope of issues that will be addressed in the environmental review document, soliciting input regarding the Proposed Action and reasonable alternatives, and for identifying concerns regarding the potential environmental effects of the Proposed Action. Comments received during Scoping will be reviewed and taken into consideration during the preparation of the NEPA and SEPA analyses. Agencies, potentially affected tribes, and members of the public are invited to comment on the scope of the SEPA EIS/NEPA EA. A Scoping Information Packet has been prepared and is available at the website listed below. You may comment on the resource categories/elements of the environment that will be evaluated, alternatives to the proposed action, and licenses, permits, or other approvals that may be required. It is requested that all comments include your name and address. Before including your name, address, telephone number, email or other personal identifying information in your comment, be advised that your entire comment - including your personal identifying information - may be made publicly available at any time. Comments may be submitted via: SAMP Environmental Review website (Click "Participate"): [www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org). ## Port of Seattle

LEGAL NOTICE – July 30,  
2018 - Sustainable

**Airport Master Plan  
Environmental Review  
SEPA DETERMINATION  
OF SIGNIFICANCE (DS)  
AND REQUEST FOR  
COMMENTS ON SCOPE OF  
SEPA ENVIRONMENTAL  
IMPACT STATEMENT  
(SEPA EIS) AND NATIONAL  
ENVIRONMENTAL POLICY  
ACT ENVIRONMENTAL  
ASSESSMENT (NEPA EA).  
Seattle-Tacoma International  
Airport (Sea-Tac Airport)  
Sustainable Airport  
Master Plan (SAMP)**

The Port of Seattle is initiating an environmental review process for the Near-Term Project improvements proposed as part of the Sustainable Airport Master Plan (SAMP). The SAMP includes Near-Term Projects for Seattle-Tacoma International Airport (Sea-Tac) that are planned for construction by 2027 that are the focus of this environmental review, which is being conducted to comply with the State Environmental Policy Act (SEPA) and National Environmental Policy Act (NEPA). The SAMP also includes a Long-Term Vision for Sea-Tac which includes projects that are not ripe for environmental review at this time, as they require further study and are not reasonably foreseeable. Before any of the Long-Term Vision projects are implemented, the appropriate environmental review process will be conducted. The Near-Term Projects (the Proposed Action) are the subject of a phased environmental review process to comply with SEPA. The Port and Federal Aviation Administration (FAA) anticipate conducting additional environmental review in the future regarding the Long-Term Vision projects identified in the SAMP. The SAMP identifies facilities and roadway improvements that are needed to serve expected growth in passengers, aircraft operations and cargo activity through 2027. Approximately 30 projects at the Airport are needed to enhance efficiency, accommodate projected growth in activity, and alleviate congestion on the airfield, in the terminal, and on the roadway system. Key elements of the Proposed Action include construction of a second terminal, a centralized maintenance

campus, off-airport cargo handling facilities, realignment of airport roadways, and expansion of the fueling facilities. The Proposed Action would accommodate up to approximately 477,000 annual aircraft operations and 56 million annual passengers. *SEPA EIS Required.* The Port of Seattle, as lead agency, acknowledges that there is public interest and concern about the potential environmental impacts of implementing the Proposed Action. Based on that level of concern and the potential for impacts that may occur with the implementation of the Proposed Action, the Port of Seattle has determined that a SEPA EIS will be prepared. *NEPA EA.* The FAA will serve as the lead federal agency for the preparation of an Environmental Assessment to comply with NEPA. The NEPA regulations adopted by the Council for Environmental Quality (CEQ), 40 CFR § 1500 et seq., together with FAA Order 1050.1F, *Environmental Impacts: Policies and Procedures*, and FAA Order 5050.4B, *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Actions*, will guide the preparation of the NEPA Environmental Assessment (NEPA EA). The lead agencies (FAA for NEPA and Port of Seattle for SEPA) have identified the following areas for discussion in the NEPA EA/SEPA EIS. In accordance with NEPA and SEPA, the environmental review will consider the potential effects of the Proposed Action and a range of alternatives on each of the environmental factors below. SEPA Elements of the Environment. Earth, Geology, Soils, Topography Unique physical features, Erosion/enlargement of land area; Air, Air quality, Odor, Climate; Water, Surface water movement/quantity/quality, Runoff/absorption, Floods, Groundwater movement/quantity/quality, Public water supplies; Plants and animals, Habitat for and numbers or diversity of species of plants, fish, or other wildlife, Unique species, Fish or wildlife migration routes; Energy and natural resources, Amount required/rate of use/efficiency, Source/availability, Nonrenewable resources, Conservation and renewable resources, Scenic resources; Environmental health, Noise, Risk of explosion, Releases or potential releases to the environment affecting public health, such as toxic or hazardous materials; Land and shoreline use, Relationship to existing

land use plans and to estimated population, Housing, Light and glare, Aesthetics, Recreation, Historic and cultural preservation, Agricultural crops; Transportation, Transportation systems, Vehicular traffic, Waterborne, rail, and air traffic, Parking, Movement/circulation of people or goods, Traffic hazards; Public services and utilities, Fire, Police, Schools, Parks or other recreational facilities, Maintenance, Communications, Water/stormwater, Sewer/solid waste. *NEPA Resource Categories.* Air Quality, Biological Resources, Climate, Coastal Resources, Department of Transportation (DOT) Section 4 (f), Farmlands, Hazardous Materials, Solid Waste, and Pollution Prevention, Historical, Architectural, Archeological, and Cultural Resources, Land Use, Natural Resources and Energy Supply, Noise and Noise-Compatible Land Use, Socioeconomics, Environmental Justice, and Children's Environmental Health and Safety Risks, Visual Effects, Water Resources; Wetlands, Floodplains, Surface Waters, Groundwater, Wild and Scenic Rivers. *Scoping.* Scoping is an early and open process for determining the scope of issues that will be addressed in the environmental review document, soliciting input regarding the Proposed Action and reasonable alternatives, and for identifying concerns regarding the potential environmental effects of the Proposed Action. Comments received during Scoping will be reviewed and taken into consideration during the preparation of the NEPA and SEPA analyses. Agencies, potentially affected tribes, and members of the public are invited to comment on the scope of the SEPA EIS/NEPA EA. A Scoping Information Packet has been prepared and is available at the website listed below. You may comment on the resource categories/elements of the environment that will be evaluated, alternatives to the proposed action, and licenses, permits, or other approvals that may be required. It is requested that all comments include your name and address. Before including your name, address, telephone number, email or other personal identifying information in your comment, be advised that your entire comment – including your personal identifying information – may be made publicly available at any time. Comments

may be submitted via: SAMP Environmental Review website (Click "Participate"): [www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org). Email: [SAMP@portseattle.org](mailto:SAMP@portseattle.org). Regular mail to: Mr. Steve Rybolt, Port of Seattle, Aviation Environment and Sustainability, P.O. Box 68727, Seattle, WA 98168. All comments must be submitted or postmarked by September 28, 2018. In addition to submitting comments on the website, or via email or regular mail, you may also submit comments in person at one of the scoping meetings listed below. Scoping meetings for the public will be held: September 10, 2018

City of Des Moines, 5:30 PM – 8:30 PM, Highline College Student Union, September 12, 2018, City of Seattle (Beacon Hill), 5:30 PM – 8:30 PM, New Holly Gathering Hall, September 17, 2018, City of Federal Way, 5:30 PM – 8:30 PM, Federal Way Community Center, September 19, 2018, City of SeaTac

5:30 PM – 8:30 PM, SeaTac Community Center. A scoping meeting for government agencies will be held: September 6, 2018, Sea-Tac Airport, 1:00 PM – 4:00 PM, Central Auditorium. Tribes. FAA will conduct Government to Government Consultation with the potentially affected Tribes as part of this environmental review process. At the scoping meetings information regarding the Proposed Action and the environmental review process will be available. For more information or for those unable to attend a Public Scoping Meeting, the same information will be available on the Port of Seattle's website: [www.SAMPenvironmentalreview.org](http://www.SAMPenvironmentalreview.org). Responsible Official: Ms. Arlyn Purcell, Port of Seattle, Director, Aviation Environment and Sustainability, (206) 787-6527, P.O. Box 68727, Seattle, WA 98168

Dates of publication in the Seattle Daily Journal of Commerce, July 30, August 30, 2018.

**Near-Term Projects**  
**Environmental**  
**Review**

**Scoping Meeting**

# Regional Growth and Market Demand

## Robust regional economy drives Airport demand and sustainable practices

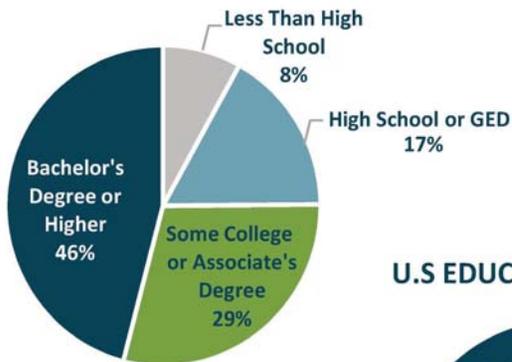

Puget Sound is home to a wide range of employers that contribute to the vibrant growth in the region.

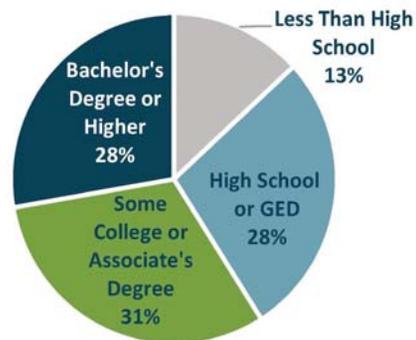

# Puget Sound Demographics

**KING COUNTY EDUCATION LEVELS, 2016**

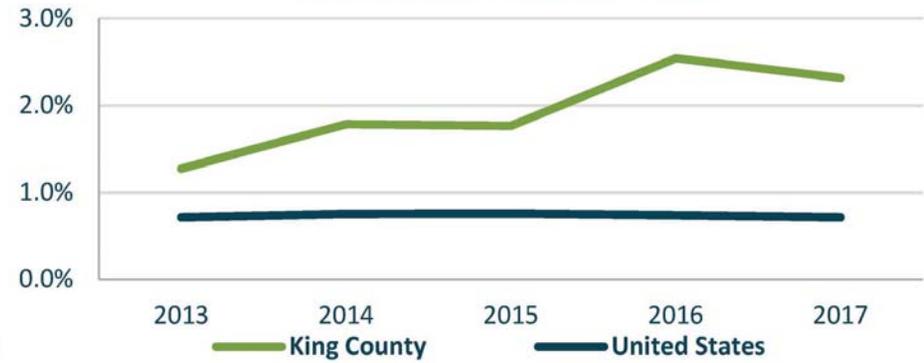

Source: U.S. Census Bureau

**U.S. EDUCATION LEVELS, 2016**

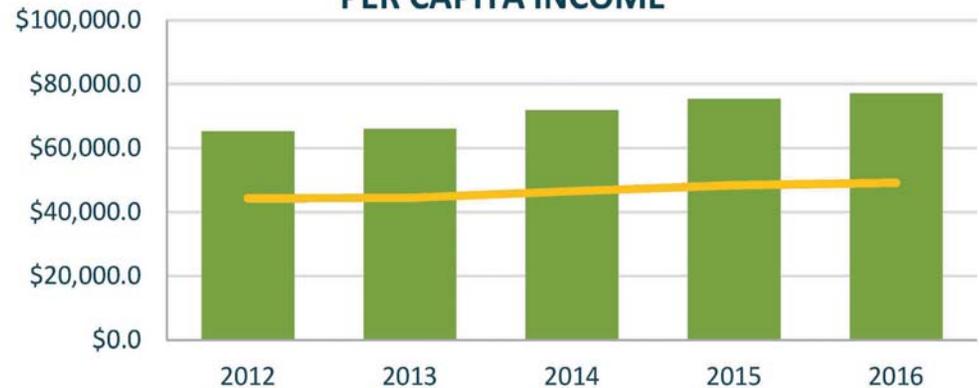

**% CHANGE IN POPULATION**

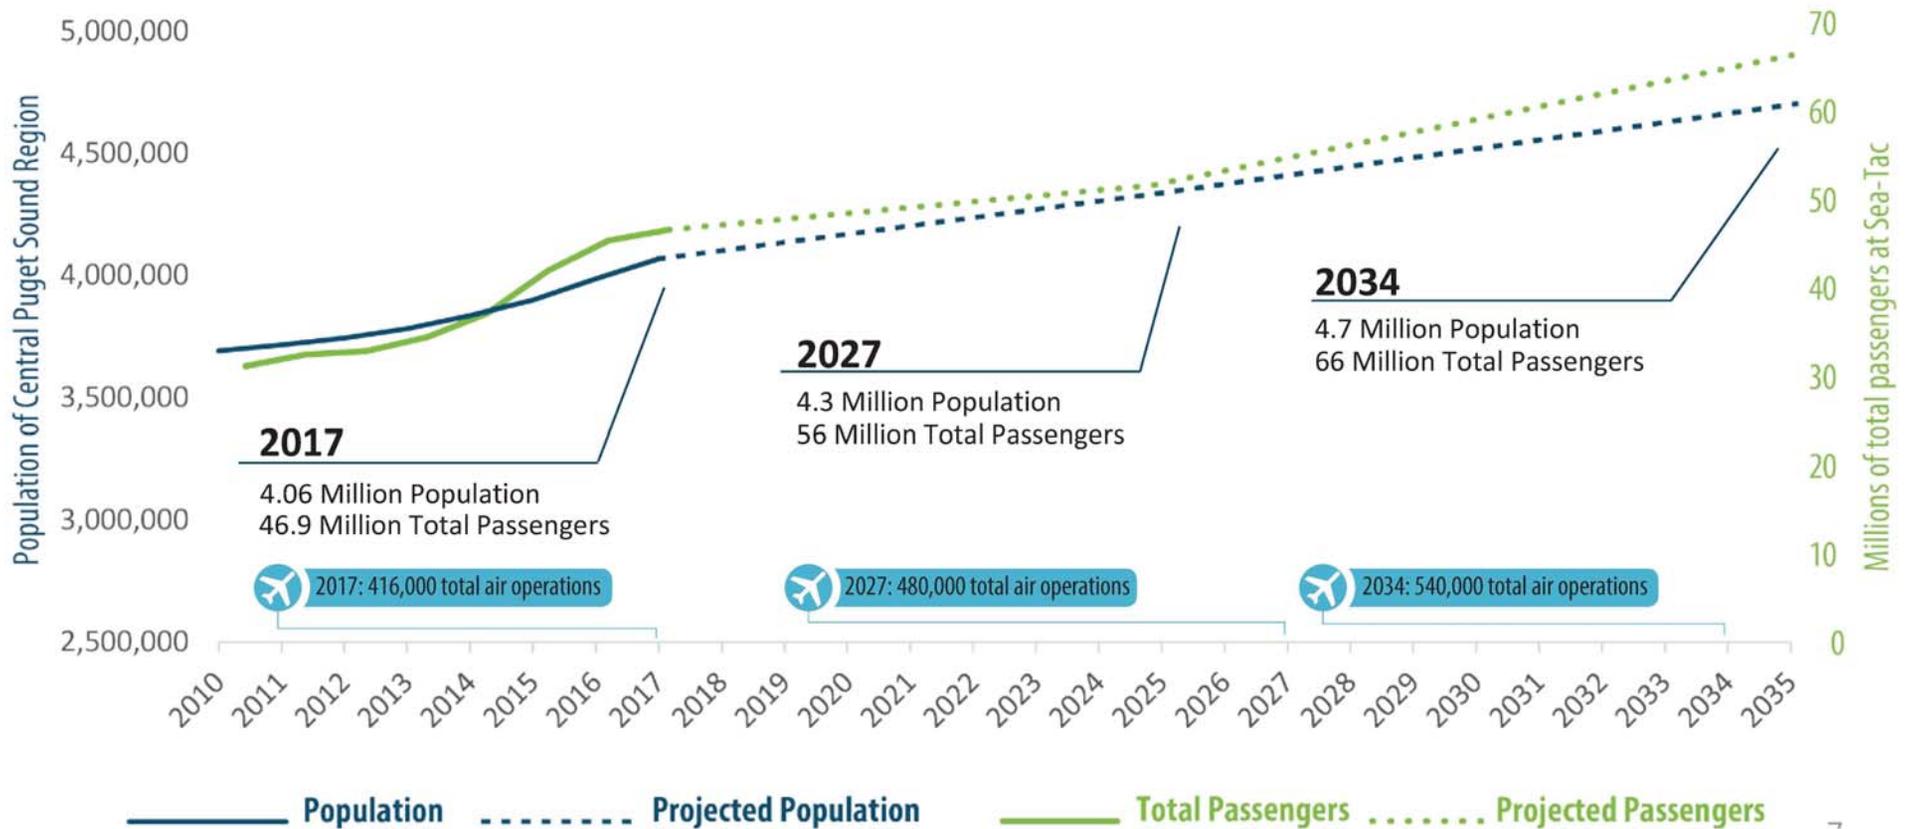

Source: U.S. Department of Commerce and Washington State Office of Financial Management

**PER CAPITA INCOME**

# Sea-Tac Airport Growth

# How to Serve Market Demand

## Three Concurrent Strategies

### Current Projects (46.9M Passengers Today)

- North Satellite
- International Arrivals Facility
- Concourse D Hardstand Holdroom
- Baggage Modernization
- Airport dining and retail Development

### SAMP Near-Term Projects (56M Passengers by 2027)

- Meet market demand
- 19 additional gates & second terminal
- Cargo facilities
- Projects to improve safety, provide support facilities, improve efficiency, and access to the airport.

### Long-Term Vision SAMP (Demand Beyond 2027)

- PSRC regional aviation baseline study
- Sea-Tac Airport airfield and airspace study
- Additional environmental review

Scoping is for SAMP NTP environmental review

# Proposed SAMP Near-Term Projects

## AIRSIDE

- A01 - Taxiway A/B Extension
- A02 - Runway 16R-34L Blast Pads

Long-Term vision not ripe for environmental review

# NEPA EA Process

## SAMP Near-Term Projects environmental review

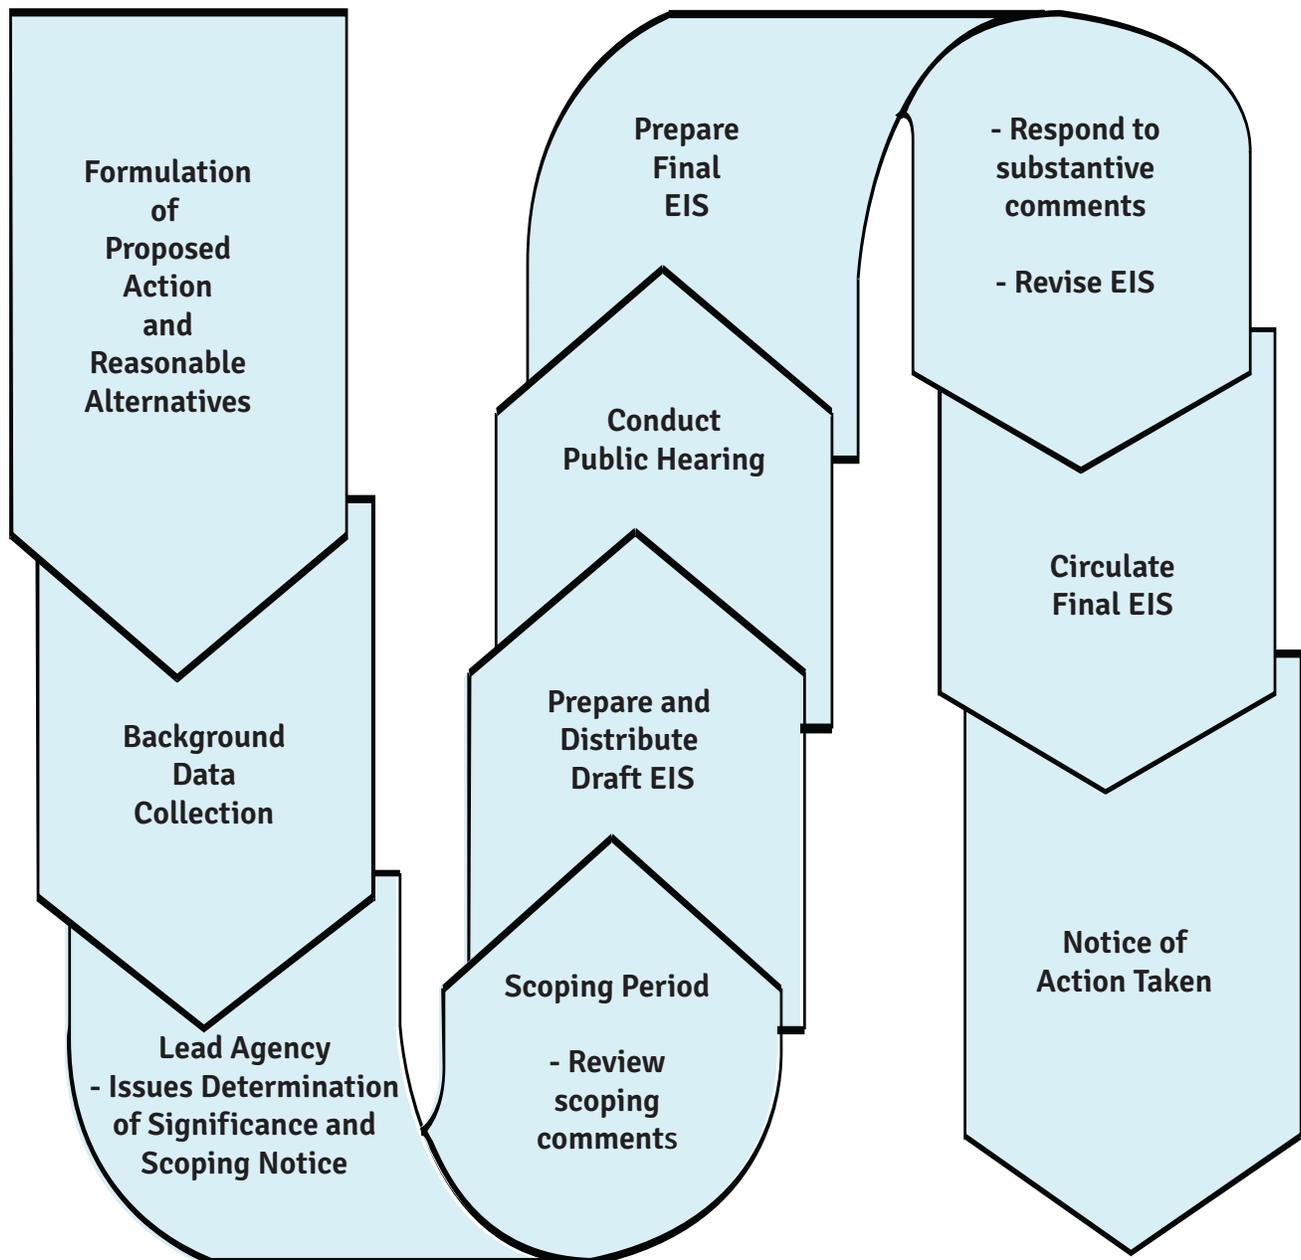

# NEPA Environmental Impact Categories

All to be considered in SAMP NTP Environmental Review

- Air Quality
- Biological Resources
- Climate
- Coastal Resources
- Department of Transportation Act Section 4(f) Resources
- Farmlands
- Hazardous Materials, Solid Waste, and Pollution Prevention
- Historical, Architectural, Archaeological, and Cultural Resources
- Land Use
- Natural Resources and Energy Supply
- Noise and Compatible Land Use
- Socioeconomics, Environmental Justice, and Children's Environmental Health and Safety
- Visual Effects
- Water Resources
  - Floodplains
  - Groundwater
  - Surface Waters
  - Wetlands
  - Wild and Scenic Rivers
- Cumulative Impacts

# SEPA Process: SAMP Near-Term Projects

## SAMP Near-Term Projects environmental review

# SEPA Elements of the Environment

## All to be considered in SAMP NTP Environmental Review

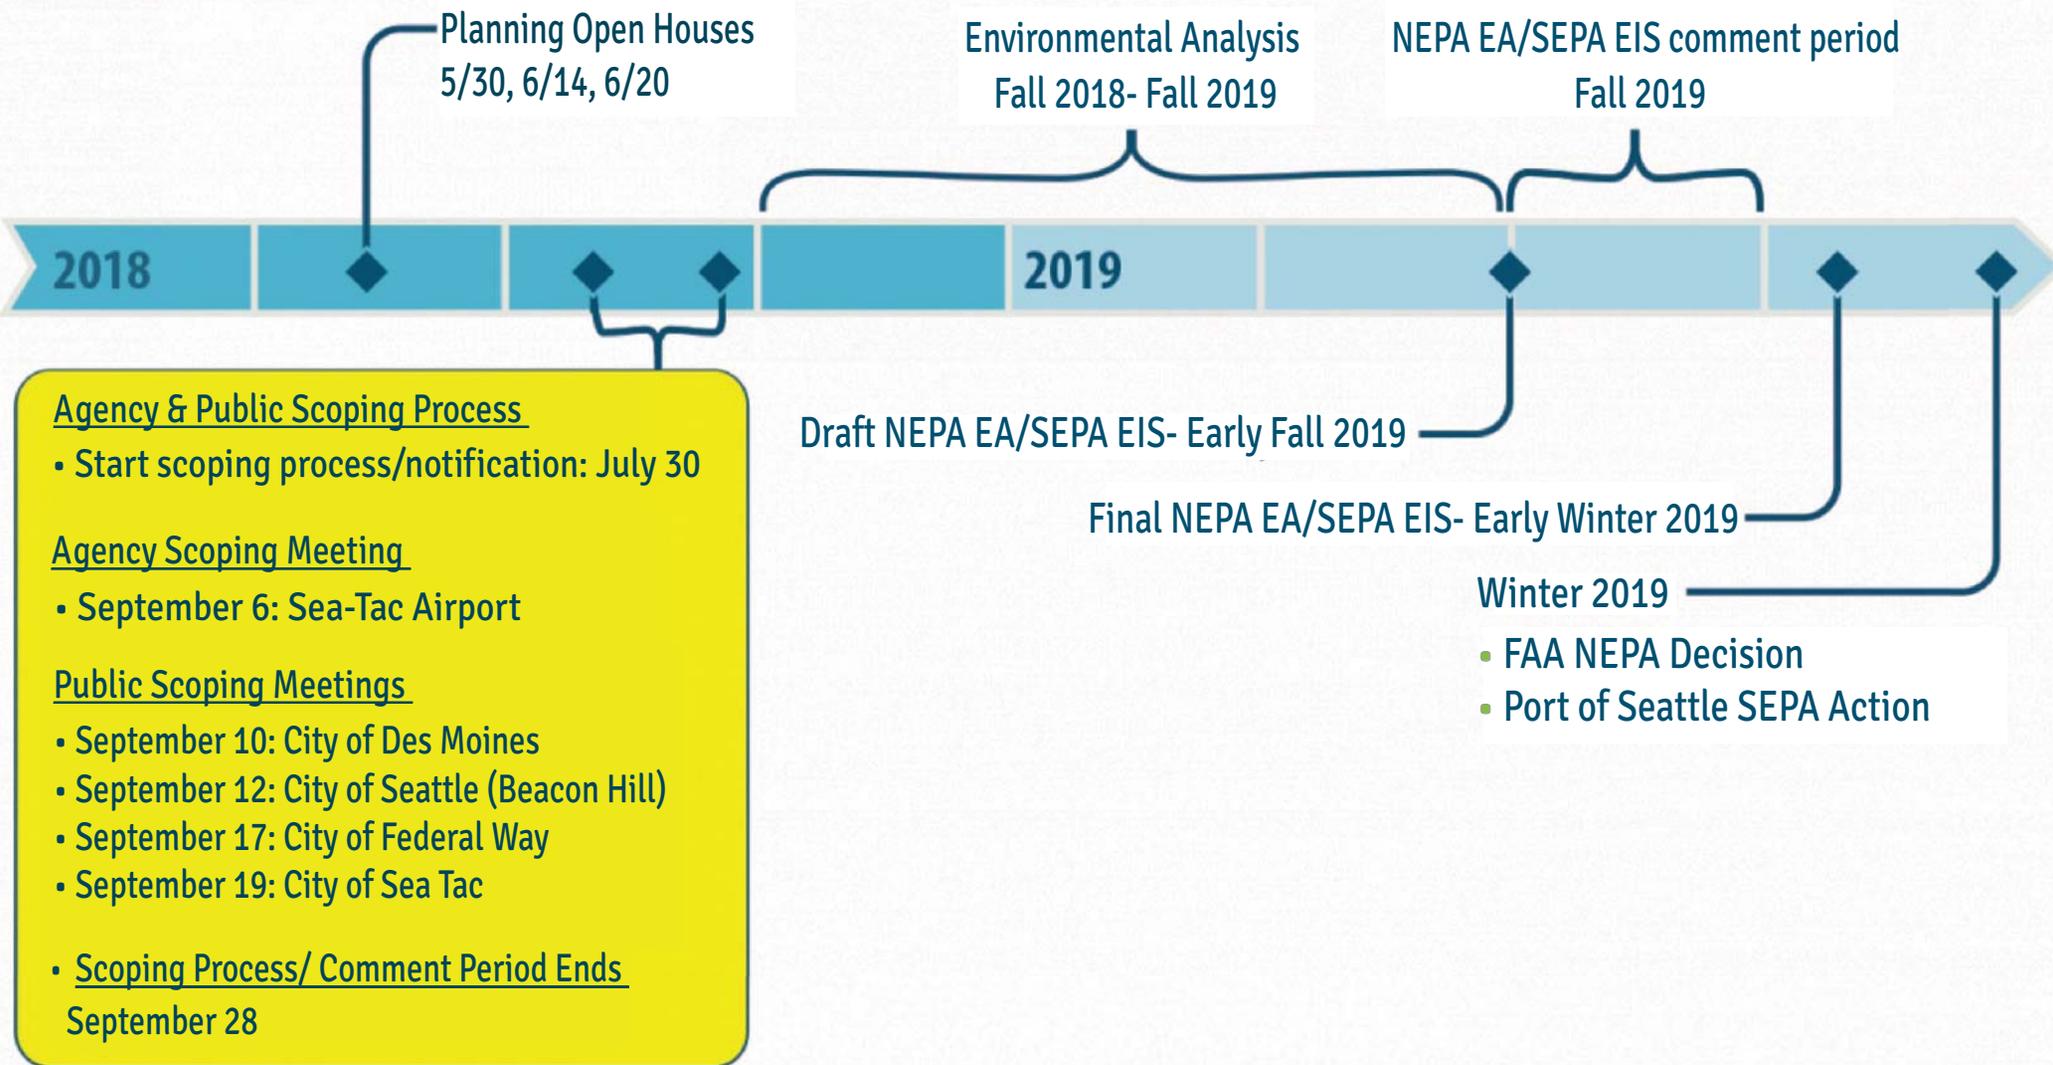

- **Natural environment**
  - Earth
    - Geology
    - Soils
    - Topography
    - Unique physical features
    - Erosion/enlargement of land area (accretion)
  - Air
    - Air Quality
    - Odor
    - Climate
  - Water
    - Surface water movement/quantity/quality
    - Runoff/absorption
    - Floods
    - Groundwater movement/quantity/quality
    - Public water supplies
  - Plants and animals
    - Habitat for and numbers or diversity of species of plants, fish, or other wildlife
    - Unique species
    - Fish or wildlife migration routes
  - Energy and natural resources
    - Amount required/rate of use/efficiency
    - Source/availability
    - Nonrenewable resources
    - Conservation and renewable resources
    - Scenic resources

# SEPA Elements of the Environment

## All to be considered in SAMP NTP Environmental Review

- **Built environment**
  - Environmental health
    - Noise
    - Risk of explosion
    - Releases or potential releases to the environment affecting public health, such as toxic or hazardous materials
  - Land and shoreline use
    - Relationship to existing land use plans and to estimated population
    - Housing
    - Light and glare
    - Aesthetics
    - Recreation
    - Historic and cultural preservation
    - Agricultural crops
  - Transportation
    - Transportation systems
    - Vehicular traffic
    - Waterborne, rail, and air traffic
    - Parking
    - Movement/circulation of people or goods
    - Traffic hazards
  - Public services and utilities
    - Fire
    - Police
    - Schools
    - Parks or other recreational facilities
    - Maintenance
    - Communications
    - Water/stormwater
    - Sewer/solid waste
    - Other governmental services or utilities

# Anticipated NTP Environmental Review Schedule

# How to Comment

- **Scoping comments may be submitted via:**
  - SAMP Environmental Review website (Click “Participate”):  
[www.SAMPNTPenvironmentalreview.org](http://www.SAMPNTPenvironmentalreview.org)
  - Email: [SAMP@portseattle.org](mailto:SAMP@portseattle.org)
- Regular mail to: Mr. Steve Rybolt  
Port of Seattle  
Aviation Environment and Sustainability  
P.O. Box 68727  
Seattle, WA 98168
- In person at a Scoping Meeting:
  - Submit written comments
  - Submit oral comments to court reporter
- **All comments must be submitted or postmarked by September 28, 2018.**

# Scoping Meetings

**Scoping is an early and open process for determining the scope of issues to be addressed and for identifying the significant issues related to a proposed action.**

## **Scoping meetings for the public will be held:**

September 10, 2018  
City of Des Moines  
5:30 PM - 8:30 PM  
Highline College Student Union

September 17, 2018  
City of Federal Way  
5:30 PM - 8:30 PM  
Federal Way Community Center

September 12, 2018  
City of Seattle (Beacon Hill)  
5:30 PM - 8:30 PM  
New Holly Gathering Hall

September 19, 2018  
City of SeaTac  
5:30 PM - 8:30 PM  
SeaTac Community Center

**At the scoping meetings information regarding the Proposed Action and the environmental review process will be available. For more information or for those unable to attend a Public Scoping Meeting, the same information will be available on the Port of Seattle's website: [www.SAMPNTPenvironmentalreview.org](http://www.SAMPNTPenvironmentalreview.org)**

# Public Hearing Protocol

1. Scoping is the process for determining the scope of issues that will be addressed in the environmental review document and identify concerns regarding potential environmental effects of the Near-Term Projects.
2. The purpose of this scoping meeting is to give all interested people the opportunity to put their comments and questions regarding the scope of the environmental review on the record. Written responses to all comments and questions will be prepared for the record and will be available for public review in the Draft NEPA EA/SEPA EIS
3. People wishing to make comments will do so by writing their comments on a form, sending an email to [SAMP@portseattle.org](mailto:SAMP@portseattle.org), or making an oral statement to the court reporter.
4. People wanting to have their comments taken by the court reporter
  - a. must register at the sign-in table. Please be courteous and respect the rights of all commenters.
5. Each commenter will be allotted 3 minutes with the court reporter.
6. People desiring more time may register to speak again with the court reporter. They will be given another opportunity to speak after all other registered commenters have had their chance.
7. You may either complete the forms today and leave them in the Comment Box or take them with you and mail them to the indicated address.

**All written comments must be postmarked by September 28, 2018**

# Proposed SAMP Near-Term Projects

## Purpose: Meet Forecasted Passenger Demand

A new Second Terminal would be constructed to provide the necessary facilities to meet the projected passenger demand at the Airport. The Second Terminal would include the following Primary Elements, Connected Actions, and Similar Actions:

- **New and modified Airport roadways** to access the new Second Terminal (L03 – Second Terminal Roads & Curbside)
- **New parking garage and passenger terminal facilities** for passenger check-in; passenger and baggage screening; airline offices, baggage conveyance and claim; concessions; and restrooms (T02 – Second Terminal & Parking)
- **New terminal concourse** including typical functions such as baggage handling; passenger holdrooms, concessions, restrooms, etc.; office space; and walkway to the passenger terminal walkway (T01 – North Gates)
- **New elevated busway** to provide a way for passengers to transfer among the Main Terminal, New Second Terminal, and Rental Car Facility (L02 – Elevated Busway & Stations)
- **New aircraft parking positions** for aircraft waiting to park at a passenger gate, aircraft needing parking overnight, or remote aircraft gates where passengers are bussed to the airplane (A05 – North Hold Pad & A09 – Hardstand (central))

# Proposed SAMP Near-Term Projects

## Purpose: Meet Forecasted Passenger Demand

A new Second Terminal would be constructed to provide the necessary facilities to meet the projected passenger demand at the Airport. The Second Terminal would include the following Primary Elements, Connected Actions, and Similar Actions:

- **Relocation of the southbound lanes of the North Airport Expressway** to clear the site for construction of A09 Hardstand (central) and T01 North Gates (L01 – North Airport Expressway (NAE) Relocation (southbound lanes)). The southbound lanes would also be widened near the terminal to alleviate congestion.
- **Construction of a new ground transportation lot** on Port property north of State Route (SR) 518 to accommodate increased demand and replace the S 160th St. parking lot displaced by the L02 - Elevated Busway (L05 – North Ground Transportation Lot)
- **Relocation of the Primary Aircraft Rescue and Firefighting (ARFF) station** to clear the site for the new passenger concourse T01 North Gates (S02 – Primary Aircraft Rescue and Firefighting (ARFF) station & S03 – Secondary ARFF). The new ARFF would be larger than the existing ARFF to accommodate additional personnel.
- **Relocation of the fuel rack** from its current location in the Cargo 6 area to clear the site for construction of the new passenger concourse T01 North Gates (S04 – Fuel Rack Relocation).

# Proposed SAMP Near-Term Projects

## Purpose: Meet Forecasted Passenger Demand

A new Second Terminal would be constructed to provide the necessary facilities to meet the projected passenger demand at the Airport. The Second Terminal would include the following Primary Elements, Connected Actions, and Similar Actions:

- In an effort to consolidate storage of aircraft deicing fluid and to clear a site for the construction of the new passenger concourse T01 North Gates, **sets of deicing fluid tanks are proposed on both the north and south end of the airfield** (S06 – Consolidated De-icing Fluid Storage Tanks)
- **Expansion of the existing north ground transportation lot** to accommodate increased demand for charter and cruise passenger buses (L04 – Main Terminal North Ground Transportation Lot)
- **A new surface parking lot** would accommodate increased demand for employee parking. The surface lot would be constructed on Port-owned property north of SR 518 (L06 – Employee Parking Surface Lot)
- **A new parking structure north of SR 518** would provide additional capacity to accommodate increased demand for employee parking. (L07 – Employee Parking Structure)
- **A new Centralized Receiving & Distribution Center** would be constructed on Port-owned property north of SR 518 to improve security and more efficiently screen and move supplies to concessionaires in the current and proposed future passenger terminals (S10 – Centralized Receiving & Distribution Center)

# Proposed SAMP Near-Term Projects

## Purpose: Meet Forecasted Cargo Demand

Various cargo-related projects would be constructed to provide the necessary facilities to meet the projected cargo demand at the Airport. These include the following Primary Elements, Connected Actions, and Similar Actions:

- **A new cargo aircraft parking area** would be constructed in the North Cargo area east of Taxiway A. (A08 – Hardstand (north))
- **The Cargo 4 South site would be redeveloped** to address poor existing building conditions and configuration, and a larger building would be constructed to serve future demand. (C01 – Cargo 4 South Redevelopment))
- **Two new cargo warehouse buildings** with truck access would be constructed on the Port-owned L-Shape property. No aircraft would utilize the L-Shape property because it is not located on the airfield. (C02 – Off-site Cargo Phase 1 (L-Shape) & C03 – Off-site Cargo Phase 2 (L-Shape))
- **The Port’s Aviation Maintenance Facility (AMF) would be relocated** from its current location in the North Cargo area to clear the site for construction of the A08 Hardstand (north) project. The AMF would be located on the west side of the airport in the West-side Maintenance Campus. (S07 – West-side Maintenance Campus)
- To accommodate displaced Ground Service Equipment (GSE) maintenance and aircraft maintenance functions from the United Airlines maintenance building and Swissport cargo facility, and aircraft maintenance functions from the United Airlines maintenance building, **two airline support buildings/expansions are planned**. The first is a new building located in the far northeast corner of the North Cargo area. The second is an expansion of the existing AMB/AFCO III building to the west. (S08 Airlines Support (north) & S09 – Airline Support (west)).

# Proposed SAMP Near-Term Projects

## Purpose: Comply With FAA Airfield Standards/Guidance

Various improvements would be constructed to comply with FAA standards and guidance. These include the following elements:

- A **runway blast pad** is a surface adjacent to a runway intended to provide erosion protection from aircraft jet blast. The existing blast pads on RWY 16R34L would be expanded to meet current standard dimensions.  
(A02 – Runway 16R-34L Blast Pads)
- **To provide the standard 500' runway/taxiway separation**, Taxiway B would be moved to the east between Taxiway C (at the north end of the airfield) and the approximate location of the existing Taxiway L. Shifting Taxiway B would also result in Taxiway A being shifted east.  
(A04 – Taxiway B 500' Separation & RIM Mitigation)
- **Fillets** are essentially rounded corners created with pavement and markings, and are used as part of taxiways to provide adequate distances between aircraft and the pavement edges. Fillets which do not meet current FAA standards would be improved when the fillet/area is in need of a reconstruction or impacted by another project.  
(A10 – Taxiway Fillets)

# Proposed SAMP Near-Term Projects

## Purpose: Improve Airfield Operational Efficiency

Various improvements would be constructed to enhance the operational efficiency of the Airport. These include the following elements:

- **Taxiway A would be extended south of Taxiway S** to provide a parallel taxiway to Taxiway B. This taxiway will help reduce delay by providing additional pavement for ATCT to sequence aircraft.
- **To facilitate the taxiway work, the Runway 34R glide slope antenna and shelter may need to be relocated** to the west side of Runway 16L-34R because it would be displaced by the Taxiway B construction. Additional work that may be required to facilitate the taxiway construction includes a new Vehicle Service Road bridge over S 188 Street.  
(A01 – Taxiway A/B Extension)
- High-speed exits allow landing aircraft to exit the runway at relatively higher speeds, leading to less time on the runway. **A new high-speed exit would be constructed** for Runway 34L arrivals between Taxiway J and Taxiway E.  
(A06 – Runway 34L High-speed Exit)
- Taxiway D is currently a short taxiway between Runways 16C-34C and 16L-34R, and is used by aircraft waiting to take off from Runway 16C. This project would **extend Taxiway D from Runway 16C-34C west to Taxiway T**.  
(A07 – Taxiway D Extension)

# Proposed SAMP Near-Term Projects

Purpose: Provide Additional Fuel Capacity and Meet Port's Sustainable Aviation Fuel Initiative

Various improvements would be constructed to enhance the Airport's fueling capabilities. These include the following elements:

- **Expansion of the fuel farm** would include additional settling tank capacity and construction of infrastructure to support the Port's Sustainable Aviation Fuel (SAF) initiative. The addition of four settling tanks adding approximately 10 million gallons of storage capacity would require additional piping, expansion of the spill containment dike, and four above ground storage tanks.  
(S01 – Fuel Farm Expansion)
