RE: Airfield Safety Enhancement Project Land Use Assurance

Dear Mr. Kessler:

In accordance with 49 US Code 47107(a)(10), the Tucson Airport Authority (TAA), as the sponsor for the Tucson International Airport, is hereby providing written assurance that appropriate action, including the adoption of zoning laws, has been or will be taken, to the extent reasonable to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. This assurance applies to both existing and planned land uses.

This assurance also applies to all land use activities associated with the Airfield Safety Enhancement Project. Although TAA does not have zoning authority, TAA will work closely with other jurisdictions within the City of Tucson and Pima County to ensure appropriate land use regulations are adopted and enforced.

Please contact me if you have questions or need additional information.

Sincerely,

Bonnie A. Allin, A.A.E.
President/CEO
Tucson Airport Authority
